### Notes/Observations

1. Basis of award was stated to be the most advantageous sum of Contract 1.
2. Although Gorrill Palmer has had working relationships with many of the contractors, in our opinion, these past relationships did not influence the preparation of the bid summary or our findings.
3. Based on Gorrill Palmer's review of the bids, Shaw Brothers is the apparent low, responsive bidder.

### Recommendation of Award

1. Based on Gorrill Palmer's review of the bid documents, it is our recommendation that the Town of Standish award the bid to Shaw Brothers Construction. Their bid appears to be the lowest, responsible bid that is below the engineers opinion of probable cost and most advabtageous to the Town of Standish.
